01 > PROGRAMS FOR COLOMBIANS

¿Do you want to study abroad?

Through four programs, we support Colombians so that they have educational opportunities, in the country and abroad, in face-to-face and virtual modalities.

These are our programs:

- Becas en el exterior para colombianos (International Scholarships for colombians)
- Jóvenes Talentos (Young talents)
- Mariano Ospina Pérez
- Jóvenes Ingenieros (Young Engineers)

La educación es de todos

JÓVENES TALENTOS

Young talents

We promote studies in arts, cultural and creative industries.

At ICETEX we support our young Colombians with partially or totally forgivable credits, interested in accessing master's degrees abroad in face-to-face or virtual modality, as well as short courses or virtual training, in disciplines of art, cultural and creative industries.

The resources of the forgivable credit may be used to cover any of the following items related to your stay abroad:

- International airfare
- Maintenance and installation expenses
- Expenses for books and materials
- Health insurance
- Tuition and degree rights

“From my experience as a beneficiary of the Young Talented Artists line of ICETEX, I can highlight the rewarding cultural immersion in different academic circuits and training in performing arts in the European territory, in which the exchange of knowledge of all kinds nurtured and strengthened my perspective. Artistic, ratifying my sense of belonging for the research in arts that we develop in Colombia.”

MARIANO
Ospina Pérez

¿Are you a researcher and want to study a postgraduate degree in science and technology?

ICETEX grants two forgivable credits up to USD 16,000 each or their, for postgraduate studies in science and technology, in the country or abroad.

The Mariano Ospina Pérez Foundation is in charge of calling and selecting the people who will benefit from the 100% forgivable credit granted by ICETEX under the Mariano Ospina Pérez program.

Researchers may finance the costs of registration, support, transportation and other expenses necessary to carry out their academic program.

- The program can be carried out in Colombia or abroad through the face-to-face modality.

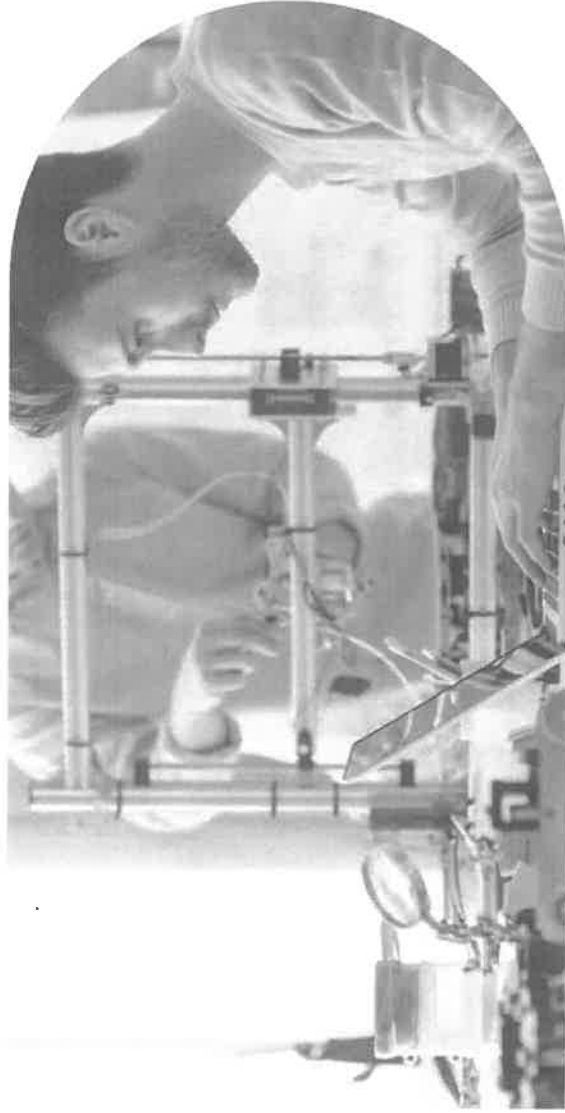

JÓVENES

Ingenieros

YOUNG ENGINEERS

From ICETEX and in cooperation with the DAAD of Germany, we finance Colombian students who are studying the last semesters of engineering, so that they carry out academic mobility activities and business practices in educational centers and companies in Germany.

Items we finance:

- Round trip international air tickets.
- Monthly support.
- Tutor cost coverage in Germany.

¿ARE YOU A FOREIGN CITIZEN AND WANT TO STUDY IN COLOMBIA ?

We support foreign citizens so that they can access educational opportunities in Colombia, either in person or online.

These are our programs:

- Language Assistant
- Reciprocity scholarships for foreigners in Colombia
- Student and academic mobility platform of the Pacific Alliance

“ I am of Bolivian nationality. I was awarded a scholarship in 2020 to study a specialization in Children's Rights, at the Sergio de Arboleda University. My stay in Colombia was one of the best experiences I have had with my son, in all my life. Colombia is a great country for postgraduate studies, and if you are a mom like me or have doubts, everything will be fine. Remember that the only person who can set limits is you

”

LUCÍA MALDONADO

ASISTENTES

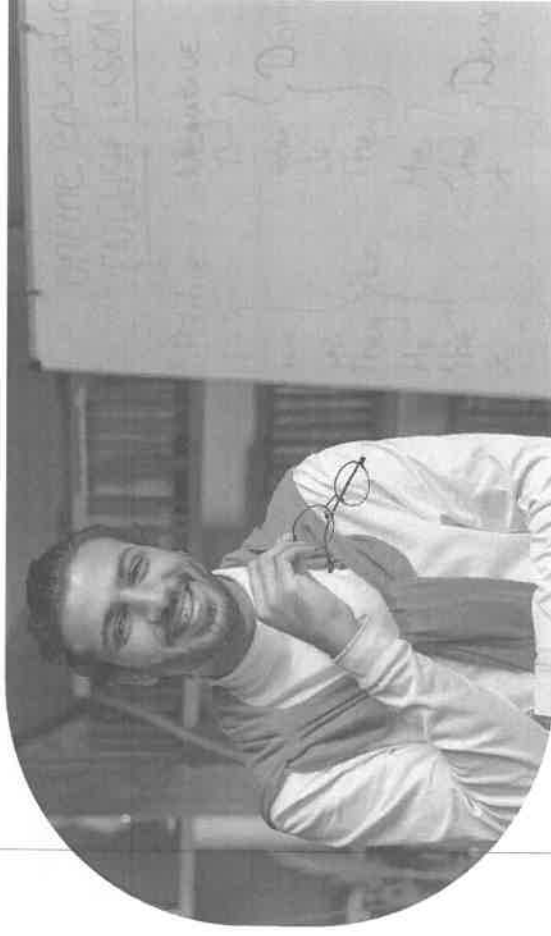

De Idiomas

LANGUAGE ASSISTANTS

If you are a foreign student or professional and you want to teach a second language in Colombian educational centers, ICETEX, in a strategic alliance with Colombian Higher Education Institutions, can finance you:

- Health insurance
- Courtesy visa
- Accommodation expenses during the induction period in Bogotá
- Granting of international air tickets and national tickets, if it is established as a commitment
- The Colombian teaching center that welcomes the assistant grants him a monthly stipend corresponding to three current legal monthly minimum wages

This program is developed within the framework of agreements signed by ICETEX with embassies, international universities, governments of other countries and different foreign allies by virtue of cooperation alliances in academic, linguistic and technical mobility that are signed according to current regulations.

INTERNATIONAL

Experts

Colombia, quality academic destination

At ICETEX we know that conducting academic events with the participation of national and international experts requires significant financial investment. For this reason, we co-finance these projects to strengthen their academic, linguistic and research programs.

Similarly, we generate and strengthen networks of academic and scientific collaboration of Colombian educational institutions with their allies abroad, through the implementation of projects framed in internationalization and other lines of national and international strategic cooperation.

Through the international experts program, it is possible to receive financial support from ICETEX in the following cases:

Incoming and outgoing mobility requested by a Higher Education Institution

We support institutions so that experts residing abroad can participate in events or activities in Colombia.

Likewise, to participate in a research activity or internship, presentations, academic missions, and even for doctoral and undergraduate students who must carry out an intersemester exchange within the framework of an agreement signed by the university, outside the country.

Virtual mobility requested by a Higher Education Institution

We generate virtual mobility spaces for Colombian or foreign experts.

Co-financing of internationalization projects

We support the implementation of face-to-face and virtual educational projects that are framed within the axes of the entity's educational cooperation policy.

Keep in mind:

- Higher Education Institutions enrolled in the Reciprocity Program for Foreigners in Colombia and Higher Normal Schools may request financial support under the conditions described in the respective call.
- Financing for the expert in the event or activity may be up to six months when the approved item is air tickets and up to fourteen days when the item is per diem.
- Similarly, internationalization projects may have a minimum duration of five days and a maximum of six months.

¿What items does ICETEX finance?

The Higher Education Institution may request, by expert, support for each of the following items:

- Round-trip international airfare at an economic rate, up to the value corresponding to ten legal monthly minimum wages in force.
- Travel expenses for up to fourteen calendar days during the expert's stay, up to a value of half the current legal monthly minimum wage per day.
- Cash funds to co-finance the project.

* Terms and conditions apply.

The educational institutions will make the requests in accordance with the respective schedule, published on the ICETEX website and in accordance with the provisions of each call.

SUPPORT FOR THE QUALITY OF COLOMBIAN HIGHER EDUCATION INSTITUTIONS WITH INTERNATIONAL EXPERTS

- ICETEX offers financial support to the quality processes carried out by Colombian Higher Education Institutions enrolled in the Reciprocity Program for Foreigners in Colombia, through the participation of international experts who can contribute to said processes.
- Interested higher education institutions must present a work plan with activities to be carried out in a period of up to six months, specifying which of the following components will be worked on with the advice of the expert:
 - Accreditation
 - Quality
 - Internationalization of the curriculum
 - Creation of programs with double degrees
 - Methodology for teaching a second language
 - Other work approaches that are aimed at achieving the above components or achieving accreditation for a specific academic program

ICETEX may finance round-trip international airfare at an economic rate and/or monthly maintenance for up to seven legal monthly minimum wages in force.
